UPSTREAM

REV. MIKE KING, ASSOCIATE PASTOR **FEBRUARY 16, 2014**

Talk it over…with your friends, family, or Growth Group.

Talking through the ideas presented in Sunday's message helps us apply God's word to our individual lives. These questions are designed to help you put His words into action in your life this week.

- What are some ways that technology has benefitted your life and your faith journey?
- What are some ways that technology has negatively impacted your life?
- How has having a smartphone (and constant access to the web, texts, e-mail, etc.) impacted your relationships with other people? In what ways has it been helpful? In what ways has it been hurtful?
- What resources can help you "live wisely" when it comes to using technology in your life? What are some practical things that you can do this week to take advantage of those resources?
- What guidelines do you need to implement in your life and your family that will help you maximize the gifts technology offers while minimizing its damage?
- Want some pointers on how to establish those guidelines in your own life, your home, or with your kids? If so, head to www.rcctulsa.org/tech for some practical tools that can help.
- How did you encounter God today? Why do you think you were here? What do you need to do with what you experienced or heard?
