I. Choices are important.

- The true condition of our heart is revealed and shaped by the choices we make.
- Poor seemingly minor choices often open the door to poor major choices.
- The longer we refuse to turn back from bad choices, the harder our hearts will become.

II. The sincerity of our hearts and our worship will frequently show up as we leave here and go into the fields of our lives.

III. Without a moral and spiritual foundation, all the technological advances in the world will be misused.
